

Myomo to Report Fourth Quarter and Year End 2017 Results on March 7, 2018

Management to hold a conference call at 4:30 p.m. EST

February 28, 2018 08:00 AM Eastern Standard Time

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Myomo, Inc. (NYSE American: MYO) ("Myomo" or the "Company"), a commercial stage medical robotics company, today announced that it will release its financial results for the fourth quarter and year end December 31, 2017 results on Wednesday, March 7, 2018, after the US markets close.

The Company will host a conference call on Wednesday, March 7, 2018 at 4:30 p.m. EST featuring remarks by Paul R. Gudonis, Chairman and Chief Executive Officer, and Ralph Goldwasser, Chief Financial Officer. The conference call will be available via webcast and can be accessed through Myomo's Investor Relations page. Please allow extra time prior to the call to visit the site and download any necessary software to listen to the live broadcast.

To dial into the conference call, please dial 1-877-270-2148 from the U.S. or 1-412-902-6510 internationally. Please instruct to be joined into Myomo's earnings conference call. A replay of the conference call will be available approximately one hour after completion of the live conference call at the Investor Relations page. A dial-in replay of the call will be available until March 21, 2018; please dial 1-877-344-7529 from the U.S. or 1-412-317-0088 internationally and provide the passcode of 10117217.

About Myomo

Myomo, Inc. is a commercial stage medical robotics company that offers expanded mobility for those suffering from neurological disorders and upper limb paralysis. Myomo develops and markets the MyoPro product line. MyoPro is a powered upper limb orthosis designed to support the arm and restore function to the weakened or paralyzed arms of patients suffering from CVA stroke, brachial plexus injury, traumatic brain or spinal cord injury, ALS or other neuromuscular disease or injury. It is currently the only marketed device that, sensing a patient's own EMG signals through non-invasive sensors on the arm, can restore an individual's ability to perform activities of daily living, including feeding themselves, carrying objects and doing household tasks. Many are able to return to work, live independently and reduce their cost of care. Myomo is headquartered in Cambridge, Massachusetts, with sales and clinical professionals across the U.S. For more information, please visit www.myomo.com.

Forward Looking Statements

This press release contains forward-looking statements regarding the Company's future business expectations, which are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are only

predictions and may differ materially from actual results due to a variety of factors. Our actual results could differ materially from those anticipated in these forward looking statements for many reasons, including, without limitation, risks related to regulatory approval and market acceptance of our products, and the other risk factors contained in our filings made with the Securities and Exchange Commission. More information about factors that potentially could affect Myomo's financial results is included in Myomo's filings with the Securities and Exchange Commission. The Company cautions readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. The Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.
