

Myomo Announces Pricing of \$4.4 Million Public Offering

BOSTON (August 25, 2023) — Myomo, Inc. (NYSE American: MYO) ("Myomo" or the "Company"), a wearable medical robotics company that offers increased functionality for those suffering from neurological disorders and upper-limb paralysis, today announced the pricing of its "reasonable best efforts" public offering of 7,333,334 shares of common stock (or common stock equivalents in lieu thereof) at a public offering price of \$0.60 per share for aggregate gross proceeds of approximately \$4.4 million, before deducting placement agent fees and other offering expenses.

The closing of the offering is expected to occur on or about August 29, 2023, subject to the satisfaction of customary closing conditions. The Company intends to use the net proceeds from the offering for general corporate purposes, which may include working capital and capital expenditures, research and development expenses and sales and marketing activities. If the Centers for Medicare and Medicaid Services finalizes the Company's classification as a brace and publishes a fee in conjunction with the next public meeting, which is expected to be held before the end of the year, the proceeds will also be used to fund additions to the Company's headcount in order to service a greater number of patients and to procure additional inventory to ramp its operations..

Members of management, affiliated investors and certain high-quality healthcare focused investors are participating in this offering.

A.G.P./Alliance Global Partners is acting as the sole placement agent for the offering.

The securities described above are being offered pursuant to an effective shelf registration statement on Form S-3 (File No. 333-256159) previously filed with the U.S. Securities and Exchange Commission (the "SEC"). About Myomo, Inc.

Myomo, Inc. is a wearable medical robotics company that offers improved arm and hand function for those suffering from neurological disorders and upper limb paralysis. Myomo develops and markets the MyoPro product line. MyoPro is a powered upper limb orthosis designed to support the arm and restore function to the weakened or paralyzed arms of patients suffering from CVA stroke, brachial plexus injury, traumatic brain or spinal cord injury, ALS or other neuromuscular disease or injury. It is currently the only marketed device that, sensing a patient's own EMG signals through non-invasive sensors on the arm, can restore an individual's ability to perform activities of daily living, including feeding themselves, carrying objects and doing household tasks. Many are able to return to work, live independently and reduce their cost of care. Myomo is headquartered in Boston, Massachusetts, with sales and clinical professionals across the U.S and representatives internationally. For more information, please visit www.myomo.com.

Forward Looking Statements

This press release contains forward-looking statements regarding the Company's future business expectations, including the expected use of proceeds from this offering, which is subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are only predictions and may differ materially from actual results due to a variety of factors.

These factors include, among other things:

- We have a history of operating losses and our financial statements for the period ended June 30, 2023 include disclosures regarding there being substantial doubt about our ability to continue as a going concern;
- our ability to achieve reimbursement from third-party payers for our products, including CMS for Medicare Part B patients;
- our ability to continue to serve patients with Medicare Advantage insurance plans CMS does not cover the MyoPro;
- our revenue concentration with a particular insurance payer as a result of focusing our efforts on patients with insurers who have previously reimbursed for the MyoPro;
- our ability to continue normal operations and patient interactions without supply chain disruption in order to deliver and fit our custom-fabricated device;
- our marketing and commercialization efforts;
- our dependence upon external sources for the financing of our operations, to the extent that we do not achieve or maintain cash flow breakeven;
- our ability to effectively execute our business plan and scale up our operations;
- our expectations as to our product development programs, and;
- general market, economic, environmental and social factors that may affect the evaluation, fitting, delivery and sale of our products to patients.

More information about these and other factors that potentially could affect our financial results is included in Myomo's filings with the Securities and Exchange Commission, including those contained in the risk factors section of the Company's annual report on Form 10-K, quarterly reports on Form 10-Q and other filings with the Commission. The Company cautions readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Although the forward-looking statements in this release of financial information are based on our beliefs, assumptions and expectations, taking into account all information currently available to us, we cannot guarantee future transactions, results, performance, achievements or outcomes. No assurance can be made to any investor by anyone that the expectations reflected in our forward-looking statements will be attained, or that deviations from them will not be material and adverse. The Company disclaims any obligation subsequently to revise any

forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.
